Within his Caring Heart

Pain & Concern

How will our future generation be without morals!
Wouldn't the world be otherwise, in absence of morals!
These questions flooded his heart which brought the concern for entire humanity.

Quest & Concept

How can we prevent this moral destruction?

His entire on-foot-himalayan journey was to find the solution to this concern. And, the solution was out there, Spiritual and Human values together only can prevent this moral destruction and establish peace.

From that moment he dedicated his entire life, thoughts & actions to unleash this vision for the entire humanity. And thus, in 1948 he founded **Shree Swaminarayan Gurukul** at Rajkot, Gujarat, India.

● HOW? ●

“How?” is certainly a very big question.

How do you transform somebody's thoughts, attitudes & behaviour?

Rise of Educational Services

During his Himalayan journey, HDH Shastriji Maharaj saw a Sage preaching Vedas to his few disciples, which reminded him of the ancient Gurukul Tradition. By establishing Shree Swaminarayan Gurukul in 1948, he re-established the extinct transformational Gurukul Education System.

Since 1948

We have been fostering value based education to millions of students, through Shree Swaminarayan Gurukul schools worldwide.

At the same time, in these years, while we have seen many social & cultural transitions, we have been reforming our framework to meet the needs of time.

Presently,
by the direction of

HDH Guruswami Mahant Swami
Shri Devkrushnadasji Swami

tireless & selfless efforts of hundreds of full-time dedicated saints who have sacrificed their families, jobs & entire lives for this noble mission.

● The Solution ●

Faith,
Arches of
Heritage,
and Pinnacle of
Spirituality.

Framework of Our Value System

॥ सा विद्या या विमुक्तये ॥

Knowledge is one that liberates

The Framework

This framework is designed on the principles of ancient & transformational Gurukul Value System. Our attempt has always been to develop the best possible tools & techniques to inculcate those values into children adopting to today's social and cultural changes. By this, we try to address most critical issues faced in day-to-day bringing up the child, like...

- Confusion between the proportions of Western Culture & Indian Values.
- Safe bringing up of the child, while parents are busy making a living for him.

... and many other such issues that we come across time to time.

Vidya

Modern Education

World class facilities alone does not assure world class education. Right environment is essential for true education as well.

Objective of education is to instil the qualities essential for conquering future challenges.

With *Vidya*, we strive to develop these qualities into our students that will ensure his holistic development for amazing future.

Inspiring 'Ambition'

Although, pre-defining a career path is a harmful step, "having an objective for every action" is certainly a very essential habit. It is this habit that inspires legendary achievements.

Building 'Curiosity'

Greatest of the great discoveries of the world have begun with a single question. The very moment, questioning stops, learning dies.

Developing 'Intelligence'

Example isn't another way to teach, it's the ONLY way to teach. A theory, which is not practiced, remains as garbage in brain and does not contribute to intelligence.

Curriculum

Not just the books, at Gurukul curriculum is centered around tools & techniques of teaching, activities for learning & ways of assessments.

Assessments

Assessments are not limited to Written Tests. At Gurukul, every moment is an assessment. It can be a quiz, debate, drama or seminar; everything is assessed.

gStatus

gStatus is the score of overall development of each child at Gurukul, derived from a framework of points that includes academics, co-curricular & beyond.

Encouraging 'Creativity'

The creative adult is the child who survived. Creativity is that power in us which transforms our dreams into a reality.

Stimulating 'Dynamism'

Sports is the fun way to learn the most sincere qualities of human being; courage, confidence, teamwork, concentration, discipline, perseverance, patience, stamina, & many more.

Empowering 'Leadership'

The highest ability human beings known to possess is the ability to inspire others. History has seen sole individuals who have revolutionized the whole world.

Flavoring 'Playfulness'

We don't stop fun because we grow old; we grow old because we stop fun. Without the flavor of playfulness, we can seldom experience wonderful colors of life.

Rewards

Rewarding toppers is okay! At Gurukul, we reward improvements. It can be from a certificate to a free tour in the form of reward.

Innovation

In this era of technology, advancements in any field is spectacular, education is not an exception. At Gurukul, we are enthusiastic to adapt & innovate.

Our Belief

We believe that modern education is not a real education but education along with moral and spiritual values is a real education.

Opinions

Gurukul literally stands up to its name. I am proud in self discipline that Gurukul has instilled in me up to this day. Current world where life is so fast and things are quick in complicating, I still go back to gurukul days and find my answers there. I do!

Today whatever success or progress I have attained in my life is due to Gurukul and Saints. Gurukul, along with modern education, taught me the real values of life - morality, spirituality, discipline and many more. Gurukul taught me to be sane, stable and disciplined in any kind of situation or success. I am really so much grateful and indebted to all those Saints and Gurukul.

I studied in Shree Swaminarayan Gurukul Rajkot during 1981-84. This period shaped my whole destiny. The greatest value I imbibed is "Abhaydan". At this age I was not only made to excel in formal study but got equipped for struggle in entire human life & thereafter. Immense dedication of saints in Gurukul made a lasting impact on my mind.

Sadvidya

Traditional Education

In an endless attempt of **making our life** luxurious, we are actually forgetting **living our life**.

Values & Morals derived from Ancient Indian culture makes our life a joyful journey.

With *Sadvidya*, we strive to inculcate these values into our students right from beginning of their life.

● Brahmavidya ●

Spiritual Education

Lack of spiritual experience makes it a **myth**. Misconception about various spiritual approaches have made us careless about this amazing **enlightenment**.

Approaches derived from Vedas lead to the true experience of spirituality.

With *Brahmavidya*, we strive to instil authentic spiritual practices, establish relationship with God that leads to the enlightenment.
